Last information update: February 2023

### Accessory code

X116: Frame for flush-mount installation on false ceilings in plasterboard

---

### Technical description

Adapter frame for flush installation on plasterboard suspended ceilings, for Laser Blade InOut version with five optical elements (L=158mm). Made of aluminium. Suitable for suspended ceilings H=12.5mm or 15mm.

---

### Installation

Suitable for suspended ceilings H=12.5mm and 15mm. The frame is secured to the suspended ceiling with self-tapping screws; the suspended ceiling is then filled, skim-coated and painted before the luminaire body is inserted. For further information, please consult the instruction sheet.

---

### Colour

Indeterminate (00)

---

### Weight (Kg)

0.12

---

Complies with EN60598-1 and pertinent regulations
