Last information update: February 2023

Accessory code
X115: Frame for flush-mount installation on false ceilings in plasterboard

Technical description
Adapter frame for flush installation on plasterboard suspended ceilings, for Laser Blade InOut version with two optical elements (L=83mm). Made of aluminium. Suitable for suspended ceilings H=12.5mm or 15mm.

Installation
Suitable for suspended ceilings H=12.5mm and 15mm. The frame is secured to the suspended ceiling with self-tapping screws; the suspended ceiling is then filled, skim-coated and painted before the luminaire body is inserted. For further information, please consult the instruction sheet.

Colour	Weight (Kg)
Indeterminate (00)	0.08

Complies with EN60598-1 and pertinent regulations
