**Product code**

MI45: LON DALI gateway DR 4x16 DIM

---

**Technical description**

Four DALI outputs for controlling up to 64 DALI devices per output, split into sixteen groups. EIA-232 interface for configuring TP/FT-10 Transceiver and Ethernet connector. Addressing of DALI devices with LNS plug-in. Monitoring of status of all connected DALI devices. Monitoring of all lamps (DALI compatible). Diagnostics and status indicator LEDs. Manual operation for direct control of DALI devices. Wire clamp screw terminals. Power supply voltage: 24V dc. Software application for controlling DALI devices, including timers, priority control and configurable behaviour in the event of voltage failure/recovery or bus reset. Application also allows constant control of the lighting and scenes according to the LonMark "Lamp actuator (3040)" profile, "Constant Light Controller (3050)" and scene control in DALI devices. If necessary order separately a power supply for DALI gateway and DALI devices (art. code MI46).

---

**Colour**

Indeterminate (00)

---

Complies with EN60598-1 and pertinent regulations

The EAC (Eurasian Conformity) logo, consisting of the letters "EAC" in a stylized font inside a square border.
